

COMPLETE STEEL SOLUTIONS UNDER ONE ROOF

About TRIDENT BUILDING SYSTEMS

Trident was founded in 1986, and recently became apart of the Behlen Group. Trident continues to provide our customers with top-quality pre-engineered and structural steel buildings. Our reputation hinges on the founding principal statement;

“ Our mission is to be a full service provider of metal buildings and structural steel fabrications that consistently meet or exceed our customer’s needs and specifications. We recognize the quality of long-term commitment to people, products, and projects. ”

Based out of Sarasota, Florida, our 116,000 square foot corporate headquarters and manufacturing plant, is equipped with state of the art machinery to fabricate projects of varying complexity. Our advanced computer technology begins with our in-house drafting department and flows seamlessly to the manufacturing plant, allowing our engineers and customer’s flexibility in planning the size and shapes of the building.

Trident’s project portfolio includes noteworthy structural steel and pre-engineered buildings within the aviation, marina, school, healthcare, commercial, military, and private industry sectors. Trident is both a member of Metal Building Manufacturers Association (MBMA) and an American Institute of Steel Construction (AISC) certified fabricator and erector, thereby our projects consistently meet or exceed stringent industry standards.

Examples of individuals long-lasting building systems can be seen across Florida, throughout South Eastern United States, and various Caribbean Islands. Our clients range from well established global general contracting firms to local people looking to enhance their property. We treat each client with the same amount of due diligence and respect regardless of project size. Our dedicated team of employee’s are here to assist with all of your project needs.

Let us partner with you and provide the

“Complete Steel Solutions”
your project deserves.

Good Iron People

In 2020, Trident Building Systems joined the Behlen Mfg. Co. family. This merger combines two family-owned companies with a great heritage and a bright future. Behlen is well known and respected for their close attention to detail in engineering and manufacturing. Behlen Steel is known for fitting together right the first time, speeding the construction process and increasing building economy.

Partner with Behlen and Trident Building Systems for our “Good Iron” and “Great Experience!” We provide the complete steel solutions your project deserves.

CUSTOMER TESTIMONIALS

“The unbelievable kindness of Trident’s staff is still difficult to quantify as it spanned from planning, architect, engineer, supplies, and labor. Our equipment...was installed by some of the most professional gentlemen we have ever had the pleasure of working with.”

Kristen A.E. Bohan OTR/L, Beyond the Spectrum

“You and your team did an excellent job with excellent results...punctual, professional, courteous, polite, and informative.”

Joe Beggs, Home Owner

“My important client was extremely pleased with how everything turned out...the way you went the extra mile to accommodate...made quite an impression on them.”

Clark Albritton, Sr. Construction Manager, KCI Technologies

“We were all thrilled to see the finished building... and we continue to get very flattering remarks from customers, neighbors, and friends.”

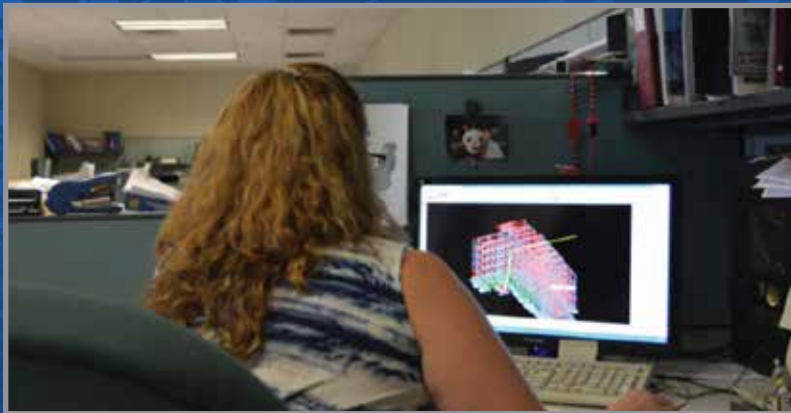

William H. Sedgeman, Jr., Chairman, Community Bank
